## DETAILED ACTION

### *Claim Objections*

1. Claim 1 is objected to because of the following informalities: It appears that the limitation "said lip" in part e) of claim 1, should read "said lid." Appropriate correction is required.
2. Claim 4 is objected to because of the following informalities: It appears that the claim should read "wherein said lid is releasably secured..." Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Abrums (US 5799792). With respect to claims 1 & 6, Abrums discloses the following:
  - Base (Fig. 6, item 26)
  - Wall extending up from base to form a pool therein (Fig. 6, item 28)
  - First lip (Fig. 6, item 76, upper lip)
  - Second lip (Fig. 6, item 76, opposite thereof of first lip)

- Lid corresponding to shape and size of base, including a retaining channel extending around the periphery thereof for releasably receiving said lips, as shown in Fig. 6, item 24

With respect to claim 2, Abrums discloses the lid retaining channel being formed by a lip edge extending from the periphery of the lid in an arcuate manner, as shown in Fig. 6, item 70 (close-up of container-lid interface).

With respect to claims 3 & 4, Abrums discloses the lid releasably engaging the first and second lip, respectively (Fig. 6).

With respect to claim 5, Abrums discloses the lid being color-coded with the container (Col. 6, Lines 5-10).
